

## The Catholic Church in Jersey

Why are we encouraging you to give 'electronically' rather than a weekly cash offering?

1. Electronic banking is safe and secure
2. A predictable and regular income helps us to plan the support for our pastoral mission
3. It allows parishioners to give even if unable to attend Mass and is convenient for travelling parishioners
4. Cash takes time and effort to count

By moving from cash focussed giving to making regular electronic giving to the Church, as a community we will have more tools for carrying out the Mission of the church. We will be more effectively organised to be even better disciples in our Catholic ministry and mission. Finances are obviously very important to support our ministry and we appreciate the generous support we receive from our parishioners.
